MMR_0563 Peter Jackson Australia Region

My Eureka Valley Narrow Gauge Railroad (EVNGR) is an On3 layout and has been **developed over about 25 years – modified and expanded from time to time as we model railroaders are prone to do.**

The theme for the Eureka Valley Narrow Gauge Railroad (ENGVR) has its origins to the Nevada County Narrow Gauge – a 3'gauge railroad that serviced some of the gold mining areas of northern California.

Peter's inspiration came from reading Gerald Best's book about the NCNG and the era is set in the 1930's to early 1940's.
